Our veterinarian has recommended the following vaccinations and worming for our particular breed of dogs as follows:

_____ 2 weeks of age: Pyrantel wormer 1cc per 10 pounds

_____ 4 weeks of age: Pyrantel wormer 1cc per 10 pounds

_____ 6 weeks of age: Vanguard +5 (first puppy shot)
Panacur 1cc per 10 pounds
Baycox 1cc per 10 pounds

_____ 7 weeks of age: Panacur C 1 gram 3 days

_____ 8 weeks of age: Vanguard +5 (second puppy shot)
Pyrantel 1cc per 10 pounds
Baycox 1cc per 10 pounds

**Puppy shipped at 8 weeks. You may worm as your veterinarian suggests.
Here are our suggestions for boosters and worming.**

_____ 12 weeks of age: Vanguard +5 (third puppy shot)
Panacur C 3 days in a row (Grams determined upon puppy weight)
Rabies Vaccination

_____ 16 weeks of age: Vanguard +5 (fourth puppy shot)
Panacur C 3 days in a row (Grams determined upon puppy weight)

Wormer as per your veterinarian's recommendations for your area

_____ 6 months of age: Heartworm preventative
Dosage and frequency to be administered as per your veterinarian's
instructions for your area

_____ 1 year of age: Booster of Vanguard +5
